## 2024 Indoor .22 Pistol League

CCR&P Club puts on two leagues each year. A Fall (Oct-Dec) and Winter (Jan-Mar) league are on Monday nights, each running for 10 weeks plus a couple of extra nights for make-up or practice. Think of it as a bowling league without the fancy shirts. Matches are held from 630pm-730pm and 730pm-830pm at the indoor clubhouse range. Each match is a total of 60 shots.

New shooters are highly encouraged to come watch and if you have a .22 pistol, you're encouraged to shoot a match for fun and see if it's something you may like.

It continues to be a very successful league filled with shooters who wanted to get off the couch and use their .22 pistols and maybe even challenge themselves to keep their skills up during the off season.

The match is run as a registered NRA INDOOR PRECISION PISTOL .22 match. A single match takes roughly 30-40 minutes to run and 10-15 minutes of scoring (and telling tales, lies and excuses).

A single match course of fire at 50 feet is as follows:

- 1 Slow-Fire target (10 minutes for 10 shots)
- 1 Slow-Fire target (10 minutes for 10 shots)
- 1 Timed-Fire target (20 seconds for 5 shots, another 20 seconds for 5 shots)
- 1 Timed-Fire target (20 seconds for 5 shots, another 20 seconds for 5 shots)
- 1 Rapid-Fire target (10 seconds for 5 shots, another 10 seconds for 5 shots)
- 1 Rapid-Fire target (10 seconds for 5 shots, another 10 seconds for 5 shots)

For scores to count, the shooter must shoot standing, one-handed. Those wanting to shoot supported or two-handed are welcome to shoot and practice but scores are not included in the league awards. League awards are based on submitting 10 scores and you'll have roughly 22 match opportunities with 2 matches held each Monday night.

The Indoor .22 League is a great excuse stay active, your skills sharp and improve your game while waiting for spring and summer shooting events to begin.

The league had tremendous turnout with 20 steady attendees turning in scores. Everyone enjoys the comradery and it's a lot like golf or bowling. The first few targets can be a little rough until you get your "swing" – then it becomes a game of steady improvement and tightening up your groups.

## OLD WEST CENTERFIRES

by Jerry Mayo

This month our Black River Buffalo Runners took their chances with cartridges loaded with the venerable paper patch bullets in our annual Paper Patch Match. Volumes have been written, including on these pages, about the paper patch bullets. Some shooters love them and others despise them but none can deny, those paper patched bullets remain a major part of the evolution of firearms and hold an important place in the history of the American Old West.

As always, we welcome all big bore black powder cartridges applicable to the “buffalo era.” However, those who were shooting non-paper patch bullets will be scored separately for this event. We shot under the threat of rain but the overcast skies provided excellent target visibility. So, let’s see how it all played out.

The course of fire was the same as we use in our aggregate matches which consists of ten shots at 100 yards at a single-bullseye target, ten more shots at 200 yards on a larger single bullseye target. The targets may be shot in any order the shooter chooses. All shooters regardless of bullet-type were awarded from the prize table.

### Scores for Paper Patch Match

7 <sup>th</sup> Dan Johnson	'85 Hi-Wall .44/40	66	35	101

For the after-match this month we continued to take the opportunity to prepare for the Quigley match coming up in June. We used our buffalo rifles which still must fire black powder and lead cast bullets. There are two targets, both of which are scaled down in size to represent their appearance to the actual distances at the Matthew Quigley shoot. The winner this day was clear and away Dick Elliott with a score of 90 out of 100.

Good shooting Dick!
